

LUBEX MASTERGEAR RR50

Product Code: L-LX50RR (5L,20L,60L,205L & 1000L)

Lubex Mastergear RR50 is a high-quality mineral oil-based lubricant for use in older Eaton Road ranger manual gearboxes where SAE 50 & API GL1 / GL2 oil is required. Also suitable for automotive and industrial gear case applications where extreme pressure type oils are not required. The high viscosity index and low pour point provide a tough, highly adhesive film to protect gear teeth and bearings against wear.

- ✓ Provides a robust heavy film strength for gear & bearing protection.
- ✓ Non-EP formula allows for improved gear shifting.
- ✓ Safe for Bronze and non-ferrous metal components.

PRODUCT DESCRIPTION:

Lubex Mastergear RR50 can be used where manufacturer's recommendation is for API service GL-1 or GL-2 gear oil. Mastergear RR50 can be used to lubricate various manual transmissions in mild gear oil applications in some spiral bevel axle assemblies and worm gear drives on commercial, farm and truck equipment. This oil can also be used in certain classic & vintage car, truck & tractor final drives where a non-EP gear oil is required.

SPECIFICATIONS & RECOMMENDATIONS:

- ❖ API GL-1, GL-2
- ❖ Gear Oil Viscosity Classification: SAE 90
- ❖ Engine Oil Viscosity Classification: SAE 50

TYPICAL CHARACTERISTICS

Test Description	Method	Unit	
SAE Viscosity Grade	SAE J 300	-	50
Flash Point	ASTM D 92	°C	210
Pour Point	ASTM D 97	°C	-6
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	17.6
Viscosity Index	ASTM D 2270	-	100
